«Place a bid» button

The "Place a bid" button automatically sets to one step higher, so you don't need to enter anything.

**Attention!** A special timer regulates the time of processing each bid — 15 seconds. Each new bid resets the timer.

3. The lower field is a list of lots that will be traded next. For your convenience, the starting price will be set in advance.

The interface for guests

# Video

An online conference in [Zoom](#) will be available for buyers throughout the auction. The personal link will be available on [your account](#) on our website.

Video broadcast is an additional tool, but not the main one.

The screenshot shows the website interface for RUSPUSHNINA ONLINE AUCTION. The top navigation bar includes links for DESCRIPTION, ONLINE AUCTION, CATALOGUE, ACCOUNT, MY PURCHASE, CONTACT US, and a language selector for Russian. The main content area is split into two columns. The left column says 'Thank you for registration!' and provides instructions on finding the online catalogue. A red box highlights a link labeled 'Auction video broadcast link'. The right column says 'We welcome You!' and contains a registration form with fields for 'Your status' (Broker), 'Broker number' (638), and 'Company' (Ruspushnina). An 'Exit' button is located at the bottom right of the form.

Link to the video broadcast on the main page

**Note!** You can participate in an online conference without installing the program on your computer, and watching it through a browser. However, we still recommend you to install it on to your device for your convenience.

With a pre-installed program on your computer, you will be able to place the broadcast in a compact form in the corner of the screen and use the interface on [online.furs.su](http://online.furs.su) without interference.

Furthermore, there will be organized a public broadcast on [YouTube](#).

**Attention!** The auction will be attended by buyers who have this opportunity. However, the priority for accepting bids is online.

Our catalogue also contains starting prices. In advance you can send a list of lots with prices or a possible range (for example, \$60-66) which is appropriate for you. They will be processed by the auctioneer during the sales.
